

## ASSIGNMENT – 3

### SMART FASHION RECOMMENDER APPLICATION

Assignment Date	20.10.2022
Student Name	ARTHI.S
Student Roll No	820319104008
Max Mark	

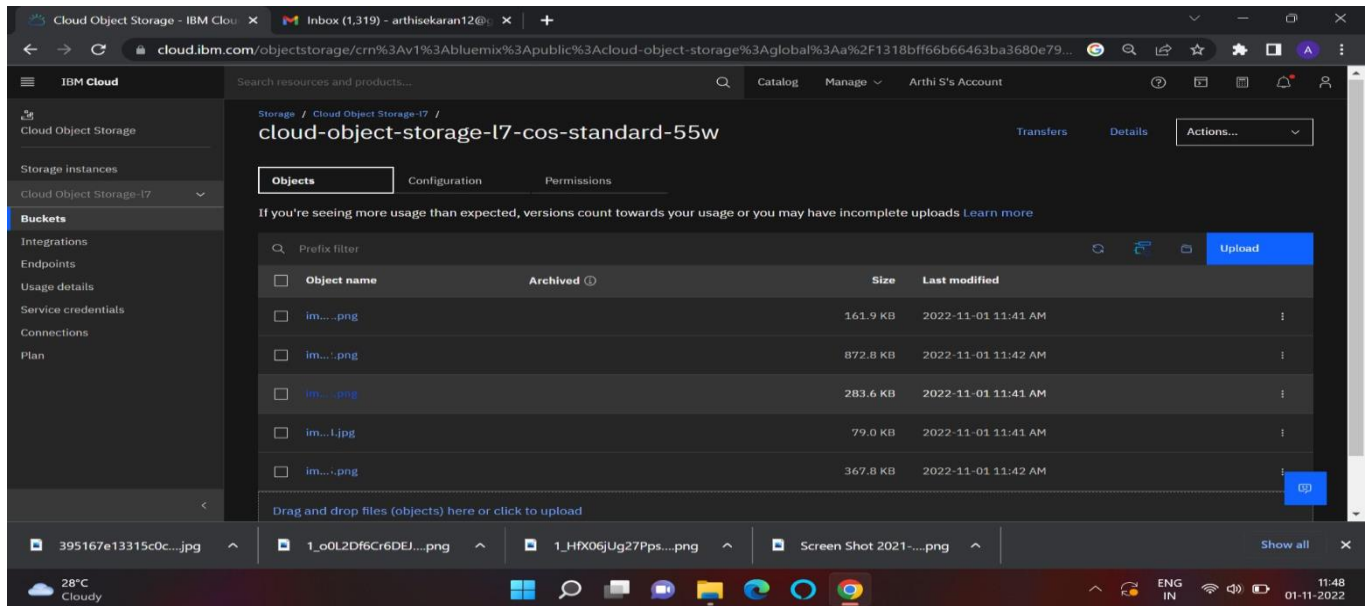

#### Questions:

1. Create a Bucket in IBM object storage.
2. Upload 5 images to IBM object storage and make it public. Write html code to displaying all the 5 images.
3. Upload a CSS page to the object storage and use the same page in your HTML code.
4. Design a chatbot using IBM Watson assistant for hospital. Ex: User comes with query to know the branches for that hospital in your city. Submit the web URL of that chat bot as a assignment.
5. Create Watson assistant service with 10 steps and use 3 conditions in it. Load that script in HTML page.

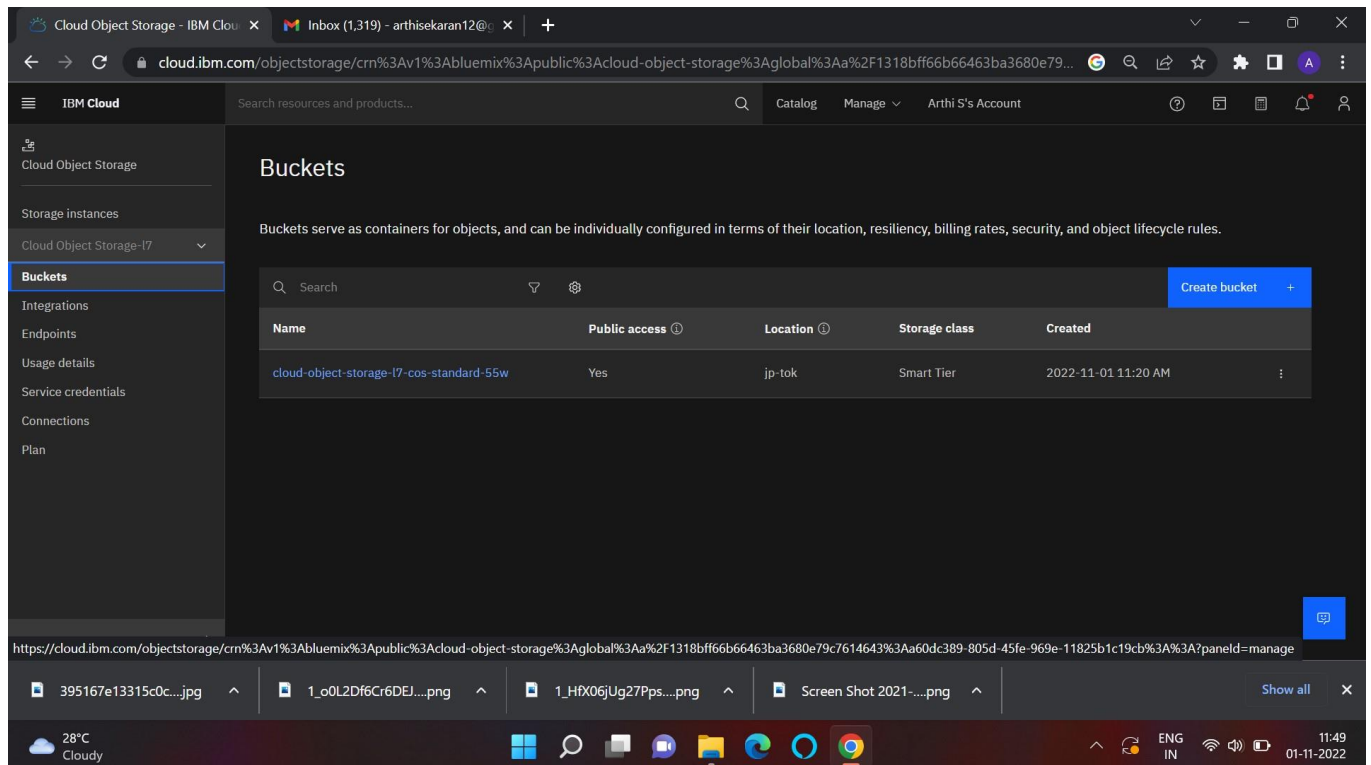

#### Create a Bucket in IBM object storage.

The screenshot shows the IBM Cloud Object Storage console. The left sidebar contains navigation links: Cloud Object Storage, Storage instances, Cloud Object Storage-l7, Buckets, Integrations, Endpoints, Usage details, Service credentials, Connections, and Plan. The main content area displays the 'Create bucket with credentials' wizard. The first step, 'Create bucket with credentials', is active. Below the step indicator, it says 'Create a Smart Tier storage class bucket in a region close to you and a service credential to connect your application'. A text input field for 'Unique bucket name' contains 'cloud-object-storage-l7-cos-sta'. Below the input field are 'Cancel' and 'Next' buttons. The right sidebar shows 'Bucket details' with 'Quick start bucket presets' including 'cloud-object-storage-l7-cos-standard-55w', 'Regional' location, 'jp-tok', 'Smart Tier' storage class, and 'Service credentials' with 'cloud-object-storage-l7-cos-standard-55w' and 'Writer' role.

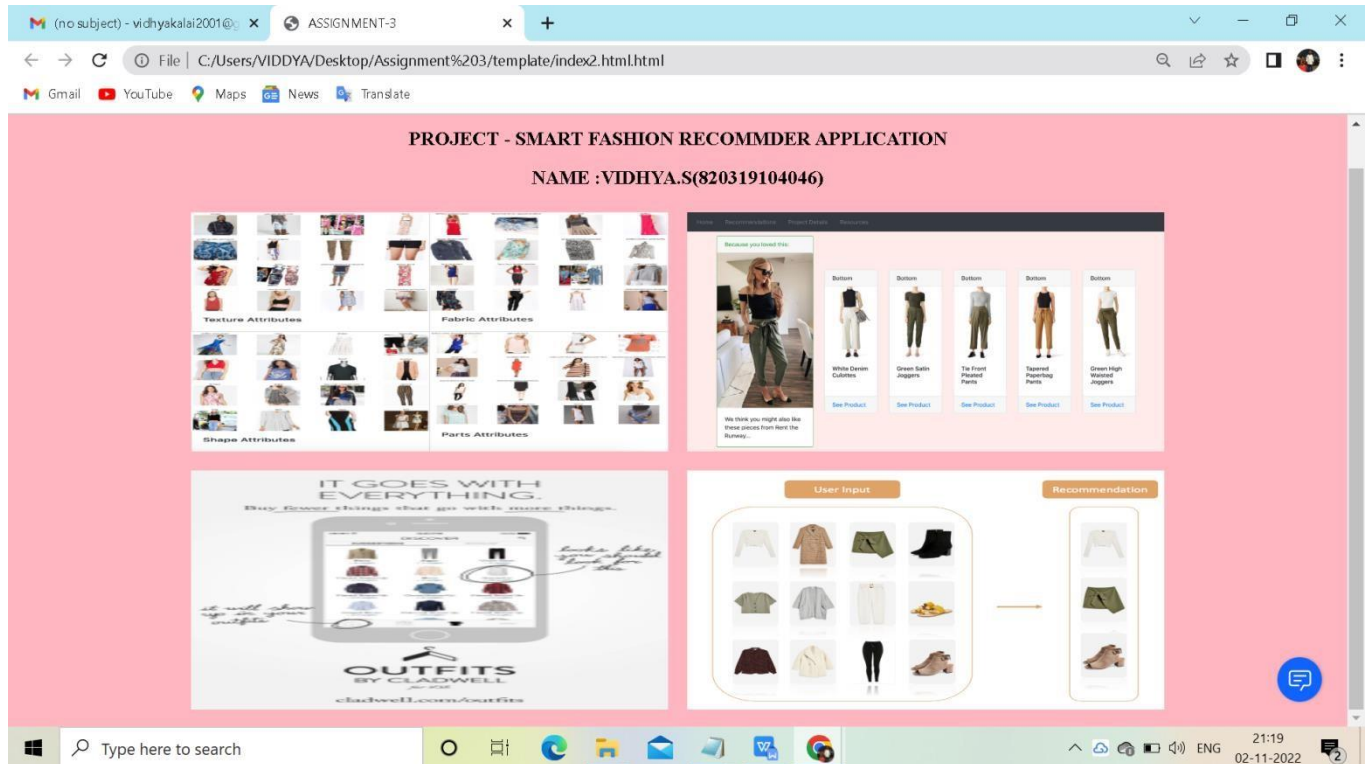

## Upload an 5 images to IBM object storage

## Make the images to public access

Displaying the images :

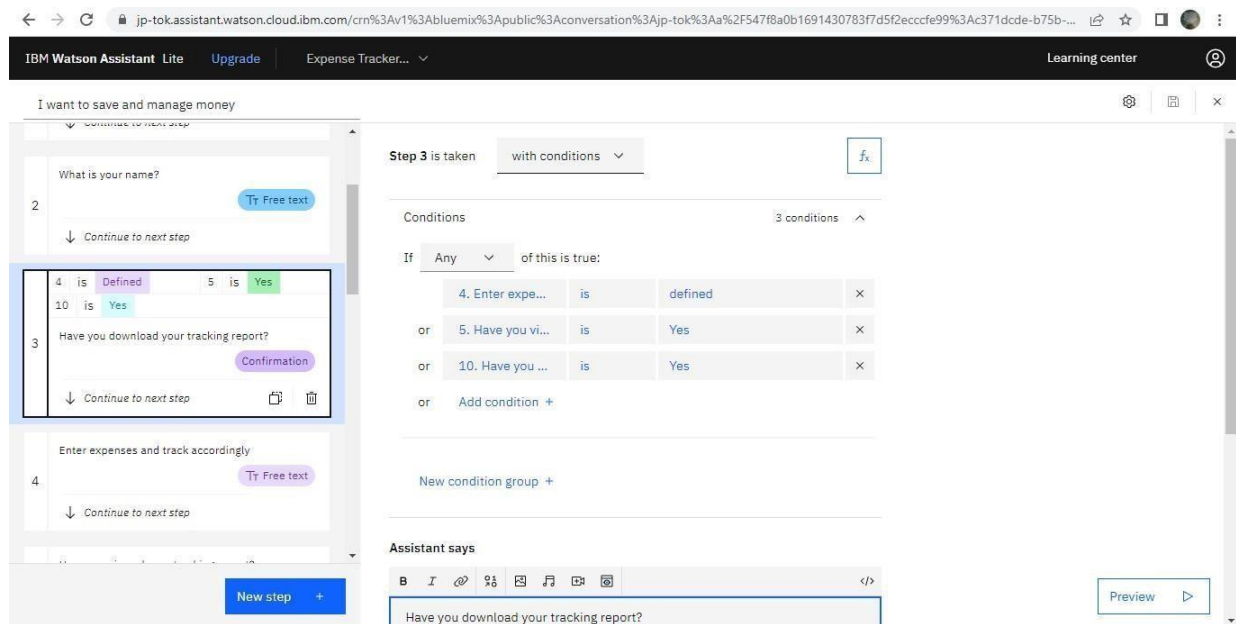

Create a Chatbot :

CHATBOT URL :
